CONTROLS & AUTOMATION

The Standard for Industrial Control Panel Safety

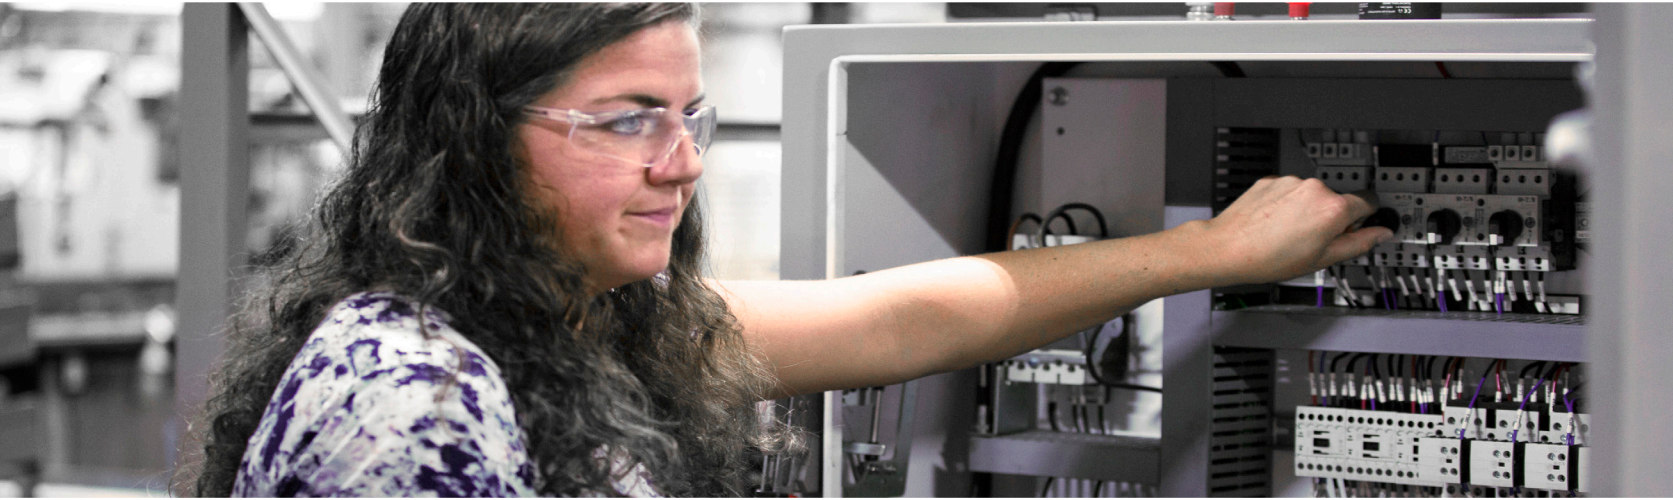

KMC Global Controls & Automation offers design and construction of **UL 508A** listed control panels. Your panel will arrive ready to meet UL's high standards of quality and workmanship.

- Design follows all applicable regulations and guidelines for dependable and safe operation
- Built to the highest standards using industry recognized quality parts and wiring principles
- Tested for proper operation before being shipped
- Programming based on logical design practices, defined terms, and structured to be easy to understand

Industry Recognized and Programmed to Suit

KMC Global Controls & Automation's industry recognized intelligent designs and programming techniques provide full-capabilities for a wide range of industrial control and automation applications for manufacturing and packaging equipment, and integration in the pharmaceutical, food, metalworking, and other industries.

**Committed to optimizing your industrial process
efficiency, safety, and profitably.**

CONTROLS & AUTOMATION

Full Capability Industrial Controls & Automation

KMC Global Controls & Automation has full capabilities, for all your industrial controls and automation needs from start to finish.

Custom Panel Design and Build

- UL 508A applications
- Tailored to your application
- NEMA ratings and standards
- Hazardous Locations
(Purge and Explosion proof)
- Single and multi-door
- Wall mounted and freestanding
- Stainless steel and painted

Automation

- Analog signaling
- Weighing systems
- Batch weight control
- Gravimetric weight control
- Preprogrammed & on-site programming
- Start-up and commissioning

Service & Support

- Service & support staff
- 24/7 phone assistance
- On-site services

Programming Platforms

Allen Bradley | Siemens | Mitsubishi | Unitronics | More...
